Subject: Celebration of Children's Day – A day of Learning and Fun Activities

Dear Parents,

Namaste!

Children's Day is a special day for children, to make it memorable, we are excited to announce that this day will be observed as Bagless Day filled with learning and fun activities.

This day is designed to promote learning through fun and interactive activities with an objective of developing appreciation towards art, culture and scientific temperament among the students.

Students will be engaged in various activities like:

Science through experiments: every child will be provided with a kit to perform experiments (An amount of Rs.250 will be deducted from their imprest money to procure science kits from an external agency).

Pottery workshop: Material will be provided by school.

Block printing workshop: Students are advised to bring a t-shirt/ big size hanky (light colored cotton cloth) to learn the art of fabric printing.

We believe this day will be a wonderful opportunity for our students to learn, bond, and enjoy themselves without the usual academic schedule.

Kindly note that the students will carry a small bag with Almanac, water bottle and snacks for short break.

Looking forward to your support and cooperation.

Kind regards

Principal
