

## Information for the parents of classes I to IX students

### Session: 2025-26

ES RAU/DEC/50  
December 16, 2025

#### **Subject: Science experiments workshop - reg.**

Dear Parents,  
Namaste!

In order to promote experiential learning and strengthen conceptual understanding, the school is organizing a **Science Experiments Workshop** with age-appropriate activities for students of **Classes I to IX** on **22nd and 23rd December 2025**.

The workshop will provide students with hands-on learning opportunities through carefully designed science experiments. Each student will be provided with an individual science experiment kit by an external agency to facilitate active participation and deeper understanding of scientific concepts.

An amount of **₹350/-** towards the cost of the science experiment kit will be **deducted from the imprest money account** of your ward.

We appreciate your continued support and cooperation in our efforts to provide meaningful learning experiences for our students.

Regards

Manish Saxena
